DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to selection of light-emitting parts.

Group II, claim(s) 10-16, drawn to reduction of number of driving Ics in comparison to number of light-emitting devices arranged in a row.

Group III, claim(s) 17-40, drawn to time-division driving.

2. The inventions listed as Groups I to III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the independent claims represent technically different solutions to unrelated problems. The groups of inventions are not so linked as to form a single general inventive concept.
